**PROJECT**

***A Snack Pak 4 Kids® Program.***

**“You don’t judge me. You just help.”**

# Tillie and the boys

There is no 'normal' that defines a family or  
needs, and our world is more diverse than  
us know.

Everyone has a story.  
Everyone has value.

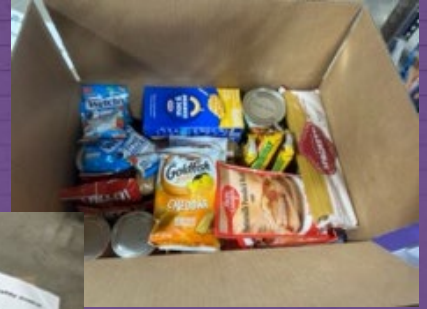

# Empowering

- Takes them out of Survival Mode
- Online ordering to accommodate their schedule
- Choice of school delivery or warehouse pickup
- Special Requests

# Offering Choice

- Menu of over 40 items
- Perishable items include  
milk, eggs, ground beef, frozen meals

# Ensuring Discretion

As many of our families are dealing with larger issues like grief, chaos in the home, legal challenges and more, we partner with the school counselor to ensure a family's dignity is preserved and respected.

# Providing Consistency

- Helps families plan their weekly menus
- Allows them the confidence to get what they need

*"It helps fill in the times when I would run out of milk other items before I got paid ~~eases~~ stress at those times. I found out about The Tillie Box about the time everything started to rise in price. So paying more for insurance, electricity, and food made this a wonderful 4 grandchildren, Western Plateau*

"This program has helped my family A LOT. I'm raising three grandchildren times that I run short of money and can't get the little much needed things. The Tillie Project picks up the slack so that my grandchildren don't go without."

3 grandchildren, Bowie and Caprock

If the voices in the room  
aren't the ones you're  
serving, you're listening  
the wrong people.
